The future is open to those who are willing to adapt to the changes with given environment and to innovate with passion and contemporary thoughts, while remaining true to creating long-term value.

At Salzer Electronics Limited, our business model always aims at creating an eco-system of building sustainable value-creation for our shareholders, customers and all other stakeholders.

This is validated through our industry-beating growth during 2017-18. We continued to explore niche and sustainable opportunities that helped us drive both, revenue and profitability during the year. While our switchgear business continued to deliver sustainable growth, we also ventured into the products like wire harness and three-phase dry type transformers. We also made further inroads into the USA and Europe. All these taken together has further strengthened our positioning in the industry, thus taking us closer to achieve our vision of becoming a global electric solutions company.

We create value at the intersection of strategy and performance

Salzer Electronics Limited (also referred as 'Salzer' or 'the Company') was established in 1985 in collaboration with German, Salzer Schaltgerate GMBH to manufacture CAM operated rotary switches. Since then, the Company has evolved from a single product entity to a complete and customised electrical solution provider to our customers. Over the years, the Company has been at the forefront of technological development by getting into technical associations with the reputed companies across the world.

The Company operates across four different divisions, namely Industrial Switchgear, Wire & Cable, Buildings Electricals division and Energy Management division. The Company has five state-of-the-art manufacturing facilities located at Coimbatore. Besides, it also has an in-house R&D lab, which is recognised by the Government of India. This has allowed the Company to offer high quality products of international standards and gain leadership position.

Financial Summary

The Company reported strong performance owing to higher sale of products, especially from three-phase dry-type transformers and wire harnesses businesses. The operating profits on the other hand strengthened significantly owing to better product mix and increased sale of higher margin products.

Timeline

1985

- Established to manufacture of CAM operated Rotary Switches

1991-95

- Unit I (Coimbatore) – started manufacturing contactors, relays, panels, Load Break Switches, Ducts and Terminals
- Starting of long term association with L&T
- Technical collaboration with Plitron for manufacture of Toroidal Transformers
- 1st Indian company to bring technology to India

2001-06

- Unit III - manufacture modular switches
- Started Wire & Cable manufacturing for L&T

2010-14

- Leading player offering total and customized electrical solutions including the products like Wire Harness, Bus Bars and MPCBs
- More than 15 different products
- 2,000 employees
- 5 manufacturing units
- Foray into tailor made products and branding for large customers
- Specialised panels for OEMs

2016-18

- Technical tie-up with Trafomodern Austria for manufacturing of Three Phase Lamination transformers
- Started commercial production of three lamination transformers
- Signed contract with GE transportation for supply of Contactors for locomotives for 10 years
- Ventured in Wire Harness business
- Acquired the business from Salzer Magnet Wires

Switches and Wire Ducts
from India

Managing Director's Communique

We have always focused on getting into technologies, which are niche and of great value. Our determination and focus is to develop products based on latest technology and highest quality which has helped us to achieve the title of preferred partner with global giants.

Dear Shareholders,

The year 2017-18 was a significant year for Salzer. Our growth testifies the effectiveness of our strategy and above all, the passion, energy and extraordinary professionalism of the Salzer team. We are proud of these achievements, which are not a point of arrival but a stepping stone towards increasingly ambitious challenges to reach new heights. Our ability to look forward guides us in creating a sustainable growth path, more in general, towards creating value for all our stakeholders.

MACRO OPPORTUNITIES

India's economy bounced back positively post growth hiccups owing to demonetisation and Goods and Service Tax (GST) implementation. The country gained back its status of 'the fastest growing global economy' with 6.7% annual growth in 2017-18.

The GST implementation has largely been positive for organised player like Salzer. Despite initial teething issues during the implementation, the Company remained largely insulated by the immediate major impact because of our product offerings to a wide variety of industries. The muted industry growth and sectoral slowdown further gave us the opportunity to invest in businesses, prioritising the need to be future ready as soon as the business conditions revive.

PERFORMANCE REVIEW

During the year we restated our financial statements as per the IND-AS accounting guidelines. Our Revenue at ₹ 442.8 crores witnessed year on year growth of 15% and EBITDA at ₹ 53.3 crores saw the year on year growth of 20.7%. EBITDA margin reported 98 bps improvement.

The growth was largely driven by our key business verticals, industrial switchgear as well as wires and cables. We continued to receive good enquiries from large OEMs like BHEL, Schneider, Honeywell and GE for our Switchgear products. Besides, our newly introduced products – three-phase dry-type transformers and wire harnesses also witnessed good traction with the large OEMs. Going forward, we are confident of significant demand revival from this segment.

Within the wire and cable products, we continued to focus on brand labelling. We started with L&T initially and today we have many major brands as our customers and several other multinationals in India. Over the past three years, we have also started to focus on giving value-added products like elevator travelling cables,

hoist cables and UL approved wires to our various customers.

Our building product division is the only segment where we operate on a B2C basis. This segment has given us new opportunities in the real estate sector where we have got some annual rate contracts with major builders in the south. Although currently, the revenue contribution from this segment is quite minuscule, we expect to bring to around 10% level over the next 2-3 years.

Our energy management division offers complete energy saving solutions, streetlight controllers for corporations across the country. The vertical has given us the recognition of being an energy service companies (ESCOs) with the highest CRISIL rating. We have successfully commissioned one large project in Tamil Nadu and have also secured a letter of award from Energy Efficiency Services Limited (EESL) for designing, manufacturing and supplying of lighting controls in urban local bodies of Varanasi, Jalna and Jharkhand. With EESL coming into place we expect to do good business from this vertical in the coming years.

TECHNOLOGY, INNOVATION AND R&D

Our technical associations with reputed global companies has allowed us to bring in high quality products of international standards and gain a leadership position in a few of them. Be it our association with Larsen and Toubro from 1993 to market our products in India or the collaboration with Plitron from Canada in 1995 or to Trafomodern from Austria in 2016 for manufacturing of Dry Type transformers. We have always focused on getting into technologies which are niche and of high value. We have been able to get a preferred vendor status with global giants like General Electric and Schneider Electric. All of our products are internationally certified and we are exporting to more than 50 countries now.

Our strong team of engineers on board remain focused on constantly innovating products and processes at Government-recognised state-of-the art in-house R&D Centre. With an annual spend of over ₹ 10 crores in R&D department, we are successfully making inroads into new industry segments like solar, elevators and locomotives for our products like three phase transformers and wire harness, thus bringing the best to the world.

SHAREHOLDER VALUE CREATION

We are tirelessly striving hard to capitalize every opportunity thereby adding value to the business as well as investments of our stakeholders in Salzer on a continuous basis. In this direction, we did a business acquisition in 2017-18 and in this fiscal, we are actively considering two overseas acquisitions.

Last year we acquired the total business from Salzer Magnet Wires Limited, a Company engaged in the business of manufacturing enamelled Coated copper wires for the motor windings and Automotive Electricals.

This acquisition has enlarged our Product Portfolios on one side and has brought additional revenue of ₹ 40 crores to ₹ 50 crores on other side.

Recently, our Board has consented to consider the acquisition of two overseas companies. The companies are involved in manufacturing of Automotive Wire Harnesses, RFID Tags & readers, Sensors and PCB Assemblies.

Since the above propositions are privy to our further negotiations, the required details of this deal would be divulged at appropriate point of time.

Besides strengthening the revenue drivers, improving ROCE and working capital cycle also form a part of our core strategy of shareholder value creation. Our focus remains on achieving profitable growth by adding newer products in all spheres, which are customised and value-added in nature and also exploring newer geographies, which can yield better margins. We are also working on system and process management to grasp a better visibility on orders based on which we can plan our inventory levels. The collaborative efforts taken internally, will lead us to improve efficiency, reduce working capital and inventory levels. These initiatives will improve our ROCE from the current levels of 12% to around levels of 18-20% within the next three years.

LOOKING FORWARD

With a very competent team in place, we are confident of achieving the milestones we have set for ourselves. We are also constantly on the lookout for new opportunities for technical associations to strengthen the base of our product offerings.

On behalf of the Board of Directors, I thank you for your investment in Salzer. We remain committed to do all we can to build long-term value creation for you and all those connected to our business. We are very optimistic about the prospects of our Company and much of this optimism comes from the vast potential of the products we manufacture in India and abroad which appears to be on the verge of significant take-off.

Best Wishes,

Mr. R. Doraiswamy
Managing Director

Corporate Social Responsibility

Salzer always seeks ways to imbibe long-term sustainability through inclusive growth and development not only within the adjoining community around the main operational locations but also with the society at large at regional level.

Since its inception, Salzer has been providing more than 60% employment to women who are leveraged to run their livelihood with their effective means

A block of a Government-aided school in Periyanaickenpalayam, Coimbatore, got renovated and received new look under Corporate Social Responsibility (CSR) spend of Salzer

DIRECTORS' REPORT

To

Dear Shareholders,

We have pleasure in presenting the Thirty Third Annual Report, together with the audited financial statements of the Company for the Financial Year ended March 31, 2018

1. FINANCIAL SUMMARY OF THE COMPANY

		(₹ in Lakhs)	
Particulars		For the year ended March 31, 2018	For the year ended March 31, 2017
I	Revenue from operations (Net off Excise Duty)	44,277.14	38,497.89
II	Other Income	310.24	544.35
III	Total Revenue (I + II)	44,587.38	39,042.24
IV	Expenses		
	Cost of Materials Consumed	35,717.26	29,795.87
	Purchase of Stock in Trade	140.77	290.74
	Changes in inventories of finished goods and work in progress	(3,512.29)	(2,118.37)
	Employee benefits expenses	1,985.69	1,874.80
	Finance Cost	1,491.25	1,459.29
	Depreciation and amortization expenses	1,053.61	889.74
	Other expenses	4,617.23	4,240.14
	Total Expenses	41,493.52	36,432.21
V	Profit before exceptional and extraordinary items and tax (III-IV)	3,093.86	2,610.03
VI	Exceptional Items	-	-
VII	Profit before tax (V-VI) & extraordinary items	3,093.86	2,610.03
VIII	Extraordinary items	-	-
IX	Profit before tax (VII-VIII)	3,093.86	2,610.03
X	Tax expense:	(1,092.21)	(875.81)
XI	Profit for the period - After Tax (IX-X)	2,001.65	1,734.22
XIII	Earnings per equity share:		
	(1) Basic (in ₹)	13.82	12.53
	(2) Diluted (in ₹)	13.45	12.11

2. ANALYSIS OF PERFORMANCE

In the FY 2017-18, the Company has witnessed the growth of 15% in its net revenue from the operations to ₹ 44,277.14 Lakhs. The Earnings before Interest Tax, Depreciation and Amortization (EBITDA) stood at ₹ 5,329.78 Lakhs in the year as against ₹ 4,410.11 Lakhs in FY17, YoY growth of 20.7%. Similarly, EBITDA margin improved considerably by over 56 bps to 12% as against 11.5% in the corresponding previous period in view of improvement in the operational efficiency in the productions. Further, the Profit after Tax was at ₹ 2,001.65 Lakhs in FY18 as against ₹ 1,734.22 Lakhs in FY17, recorded a year on year growth of 15.4%. In the fiscal 2017-18, Direct Exports contributed 17.2% to the total revenues.

Your Company has demonstrated good growth in its revenues. This growth was mainly driven by demand in switchgear business segment and also from products like wire harness and three phase dry type transformers. The increase in exports to USA and Europe has also been another factor contributing to the increased revenues.

Your Company continues to focus on adding new, niche and high margin products, enter new geographies and offer total and customized electrical solutions to its existing and new customers. To aid to this, your Company has constantly been on the lookout for any new opportunities for technical associations to strengthen the base for its product offerings.

DIRECTORS' REPORT (Contd.)

Industrial switch gear segment

The industrial switch gear segment is one the largest contributors to overall revenues of your Company. This segment comprises Cam Operated Rotary Switches; Toroidal Transformers, Relays, Load Break Switches, Wire Harness, Three Phase Dry Type Transformers etc. This division posted a growth of 16% on year on year and made 45% contribution to the total revenue of the Company. Your Company has increased its supply for these new products to the Original Equipment Manufacturers (OEMs). Going forward, the demand for the Products will significantly improve because of its high standards of quality. Good traction has been seen in the newly added product Three-Phase Dry Type Transformers with various large OEMs.

Wire and cable segment

Wire and cable segment consisting of copper wires and cables, is the second major business of your Company. On a yearly basis, wire and cable business contributed 49% with a year on year robust growth of 27%. Within this segment, your Company's focus has been to do brand labelling for major brands. Initially, it has been started with branding for L&T, and today branding is being done for Crompton Greaves, Texmo, E-Fab and a couple of other brands. In the last two years, this division has started to focus giving value added products to various customers like elevator travelling cables; wire harnesses, hoist cables and other similar cables in the segment including UL approved wires.

In order to strengthen the revenues of this Segment, your Company has acquired the whole of the business undertaking from Salzer Magnet Wires Limited on slump- sale basis as a going concern in pursuance of the Business Transfer Agreement effective March 08, 2018 for a total value of ₹ 2,029.10 Lakhs for consideration other than cash. The acquired undertaking is engaged in the business of manufacturing of enameled Copper Wires which have its applications in Transformers, Motors, Alternators, Contactors, Relays and Auto electricals. It is being expected that the acquired undertaking would bring not less ₹ 75 Crores business volumes in the top line of this segment in the current year.

Building Product Segment

This is the only segment where your Company has been operating on a B2C basis. The Portfolio under this Segment involves Distribution Boards, Modular Switches & Specialty Switches, Movement Sensors, Remote Switches, Single Phase Motors Switches, House Wires etc., The building segment product division contributed around 5% of our revenues in 2017-18. In the real estate Sector, this Segment secured some annual rate contracts with certain major builders in the south.

Energy management segment

The fourth is the Energy Management Segment. This is a new technology oriented business which was developed by your Company's in-house R&D team. This product segment has given a benefit of being the largest ESCO, with highest CRISIL rating -Grade A in the country for your Company. Energy management division, during the full year FY 2018, generated revenues of nearly ₹ 500 Lakhs, which is only about 1% of total revenues as this an order book driven business. Your Company has already participated in a new tender with Energy Efficiency Services India Limited (EESL) in the last year and are expecting the results of this tender during the second quarter of current year. Going forward, your Company's focus remains to achieve profitable growth by adding newer products which are customized and value added in nature, exploring newer geographies which can yield better margins. With a very competent team in place, your Company is quite confident of achieving the milestone which it has set for itself.

3. DIVIDEND

The Board of Directors at their meeting held on May 24, 2018 recommended a Dividend at a rate of 16% (₹ 1.60 per share) for the financial year ended March 31, 2018 as that of the last year. The proposal is subject to the approval of shareholders at the ensuing Annual General Meeting.

Dividend (including dividend tax) as a percentage of net profit after tax is 15%, on the expanded capital. In order to strengthen the internal accruals of the Company, Your Board of Directors moderated the Dividend Payment out of available surplus for the financial year 2017-18 on the expanded capital.

DIRECTORS' REPORT (Contd.)**4. SHARE CAPITAL AND OTHER RELATED SECURITIES****a. Amendment in Capital Clause in the Memorandum of Association**

During the year under review, with the consent of the shareholders by means of requisite resolutions passed at their Extra Ordinary General Meeting held on December 16, 2017, the Capital Clause (Clause V) in the Memorandum of Association of the Company has been amended by Re-classification of the share Capital of 20,00,00,000 comprising of 2,00,00,000 equity shares of ₹ 10/- each in the following manner

- ii. 10,00,000 Non-cumulative convertible preference shares having a face value of ₹ 10/- each aggregating to ₹ 1,00,00,000.

b. Insertion of New Article in the Articles of Association

The Shareholders at their Extra Ordinary General Meeting held on December 16, 2017 approved by means of Special resolutions the insertion of new Article 13(a) in the Articles of Association of the Company which provides for :-

"The Company shall have the power to issue Non-Voting Convertible Preference Shares which are eligible to be converted fully into equity shares of the Company as a part of its authorized share capital in the manner permissible under the Act and relevant SEBI Regulations and the "Directors" may, subject to the "Provisions" of the Act, exercise such powers in any manner as they may think fit and provide for the conversion of Non-Voting Convertible Preference Shares into Equity on such terms and conditions including payment of the Dividend and the right to convert at premium or otherwise as the Board may think fit."

c. Exercise of Stock Options

During the reporting period, your Company issued 1,48,500 equity shares of ₹ 10/- each to the employees who exercised their vested stock Options under "Salzer Electronics Limited Employees Stock Options Scheme 2012-13", with a lock in period of two years from the date of the allotment. As at March 31, 2018, the Company has 4,56,050 outstanding stock options, left unexercised by the Employees. Disclosures under Rule 12(9) of Companies

(Share Capital and Debentures) Rules 2014 read with Regulation 14 of SEBI (Share Based Employees Benefits) Regulations 2014 are given under Annexure 5.

d. Issue of securities on preferential basis

During the reporting period, your Company has acquired the whole of the business undertaking of Salzer Magnet Wires Limited ("**SMW**") as a going concern on a Slump Sale basis in terms of Business Transfer Agreement executed on March 08, 2018. In pursuance of the Business Transfer Agreement, SMW transferred all its Assets and Liabilities at the cost of ₹ 209.10 Lakhs as valued by an Independent Chartered Accountant, to the Books of your Company without any further obligations and in turn as a purchase consideration, SMW has been allotted 10,30,000 securities at an issue Price of ₹ 197/- per share in the following form for an aggregate amount of ₹ 2,029.10 Lakhs on March 16, 2018 on preferential basis based on the strength of the shareholders' approval dated December 16, 2017 as required under Chapter VII of SEBI (Issue of Capital and Disclosures Requirement) Regulations, 2009:-

- i. 5,00,000 Equity shares of ₹ 10/- each at an issue Price of ₹ 197 per share for total value of ₹ 985 Lakhs and
- ii. 5,30,000 Non-Cumulative 5% Convertible Preference Shares ("**NCCPS**") ₹ 10/- each at an issue Price of ₹ 197 per share for total value of ₹ 1,044.10 Lakhs with lock in period of three years and convertible into equity at any time over the period of two years from the date of allotment.

e. On the sum up of the above allotment of shares, the Company allotted 6,48,500 equity of ₹ 10/- each and 5,30,000 NCCPS during the reporting Period.**f. On date of this report,**

- a) Aforementioned 5,30,000 NCCPS have also been converted into similar number of equity shares on May 24, 2018 and there was no pending conversion of NCCPS and
- b) Of 4,56,050 Outstanding Stock Options as at March 31, 2018, the employees have exercised 97,050 Stock Options under the Stock Options Scheme and got allotment of similar Number of equity shares on May 17, 2018 which resulting in only 3,59,000 left Un-exercised vested options by the Employees

DIRECTORS' REPORT (Contd.)

5. CORPORATE GOVERNANCE

As required under Schedule V(C) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, a separate section on corporate governance practices followed by the Company, together with a certificate from the Managing Director and the Company's Auditors confirming compliance attached with this report Annexure: 1

6. RESERVES,

Your Board of Directors, as a prudent policy in the absence specific provisions in the Companies Act 2013 and Rules made there-under, has transferred ₹ 45 Lakhs to the General Reserve Account.

7. LIQUIDITY

As at March 31, 2018, your Company had adequate cash and cash equivalents in its Books, taking care of all such current liabilities comfortably.

8. CHANGE IN THE NATURE OF BUSINESS, IF ANY

During the year, the nature of the business of your Company – Manufacturing of Electrical Installation Products- has not been changed.

9. MATERIAL CHANGES AND COMMITMENTS AFFECTING THE FINANCIAL POSITION OF THE COMPANY WHICH HAVE OCCURRED BETWEEN THE END OF THE FINANCIAL YEAR OF THE COMPANY TO WHICH THE FINANCIAL STATEMENTS RELATE AND THE DATE OF THE REPORT

There are no significant material changes and commitments affecting the financial position of the Company which have occurred between the end of the financial year 2017-18 and the date of this report.

10. DETAILS OF SIGNIFICANT AND MATERIAL ORDERS PASSED BY THE REGULATORS OR COURTS OR TRIBUNALS IMPACTING THE GOING CONCERN STATUS AND COMPANY'S OPERATIONS IN FUTURE

No orders passed by any Court in India or by any Regulator or by Tribunals affecting the going concern status and Company's operations in future.

11. DETAILS IN RESPECT OF ADEQUACY OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE FINANCIAL STATEMENTS.

The Company has put in place adequate internal financial controls over financial reporting. These are reviewed periodically and made part of work instructions or processes in the Company. The Company continuously tries to automate these controls to increase its reliability.

The Company has adopted accounting policies which are in line with the Indian Accounting Standards ("IND-AS") notified under Section 133 of the Companies Act, 2013 read together with the Companies (Indian Accounting Standards) Rules, 2015. Changes in policies, if any, are approved by the Audit Committee in consultation with the Statutory Auditors.

The Company has identified inherent reporting risks for each major element in the financial statements and put in place controls to mitigate the same. These risks and the mitigation controls are revisited periodically in the light of changes in business, IT systems, regulations and internal policies. Corporate accounts function is involved in designing large process changes as well as validating changes to IT systems that have a bearing on the books of account.

The Company periodically conducts physical verification of inventory, fixed assets and cash on hand and matches them with the books of account and dealt with appropriately. No Discrepancies were found during the year under review.

The Company, in preparing its financial statements makes Judgments, Recognitions, Measurements and Estimates based on requirements under Notified IND AS and uses external agencies to verify/ validate them as and when appropriate. The basis of such Judgments, Recognitions, Measurements and Estimates are also approved by the Audit Committee of the Board of Directors of the Company in consultation with the Statutory Auditors of the Company.

The Company has a Code of Conduct applicable to all its employees along with a Whistle Blower Policy which requires employees to update accounting information accurately and in a timely manner. The policy is also available at www.salzergroup.net

DIRECTORS' REPORT (Contd.)

19. DIRECTORS:

A) Changes in Directors and Key Managerial Personnel

- i) During the year under the review, the following changes took place on the composition of the Board of Directors of your Company.

Mr. Otto Eggiman who was appointed as an additional director by the Board of Directors at their Board Meeting held on May 25, 2017 in the capacity of the Independent Director for a term of three years effective May 25, 2017 and whose appointment was approved by the shareholders at their 32nd Annual General Meeting held on September 09, 2017 in terms of Section 160 of the Companies Act 2013

B) Declaration by an Independent Director(s) and re- appointment, if any

All Independent Directors have given declarations that they meet the criteria of independence as laid down under Section 149(6) of the Companies Act, 2013 and Regulation 25 of SEBI (Listing Obligations and Disclosure Requirements) Regulation 2015. The Board has optimum composition of the Independent and Non-Independent Directors.

C) Formal Annual Evaluation

SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, mandates that the Board shall monitor and review the Board evaluation framework. The framework includes the evaluation of directors on various parameters such as: -

- Board dynamics and relationships
- Information flows
- Decision-making.
- Relationship with stakeholders
- Company performance and strategy
- Tracking Board and committees' effectiveness

Peer evaluation

The Companies Act, 2013 states that a formal annual evaluation needs to be made by the Board of its own performance and that of its committees and individual directors. Schedule IV of the Companies Act, 2013 states that the performance evaluation of independent directors shall be done by the entire Board of Directors,

excluding the director being evaluated. The evaluation of all the directors and the Board as a whole was conducted based on the criteria and framework adopted by the Board. The evaluation process has been explained in the Corporate governance report.

D) Committees of the Board.

Currently, the Board has six committees: the Audit Committee, the Nomination and Remuneration Committee, the Corporate Social Responsibility Committee, Stakeholders Relationship Committee, the Risk Management Committee, the Employees Compensation Committee. A detailed note on the composition of the Board and its committees is provided in the Corporate governance report section of this Annual Report.

Considering the objectiveness and functions, the Shareholders / Investors Grievances Committee and the Share Transfer Committee have been amalgamated and named as Stakeholders Relationship Committee effective May 26, 2016.

20. LISTING REGULATIONS

AUDITORS' CERTIFICATE ON COMPLIANCE OF CONDITIONS OF CORPORATE GOVERNANCE

To

The Shareholders

Salzer Electronics Ltd

1. We have examined the compliance of conditions of Corporate Governance by Salzer Electronics Ltd, for the year ended 31.03.2018 as stipulated in Regulation 27 of SEBI (LODR) Regulations 2015.
2. The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
3. In our opinion and to the best of our information and explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreement.
4. We state that no investors' grievances are pending for a period exceeding one month, as on 31st March 2018 against the Company as per the records maintained by the Company.
5. We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

ANNEXURE-3

Disclosure pursuant to Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUT GO.

A. CONSERVATION OF ENERGY

Your Company, being a modest power intensive one, continues to ensure measures for conservation of energy wherever possible.

B. PARTICULARS WITH RESPECT TO TECHNOLOGY ABSORPTION:

Research & Development:

Research and Development (R&D) plays a critical role in the innovation process. It's essentially an investment in technology and future capabilities which is transformed into new products, processes, and services. R&D is essential to keep ahead in the Competition. R&D would make the products to get transformed frequently in line with changing needs of the end users. Besides, new products with contemporary technologies and new features are being developed at R&D House so to gain the market share.

As stated in the Directors' Report, the recognition of in-house R & D by the Government of India, Ministry of Science and Technology, Department of Scientific and Industrial Research, New Delhi is continuously maintained since 2004 and the present renewal of the recognition is valid upto 31.03.2020.

1. Specific areas in which R&D was carried out by the Company.

The R&D wing of the Company has been working to achieve the following objectives:

- Sustainability of the quality standards comparable to the international standards.
- Ensuring process development on continuous basis, to be cost effective and cost competitiveness.
- Enlarging the utilities of the product by continuous improvement in specifications, design, etc.,
- Ensuring technological upgradation and know-how for the products of the Company.
- Developing new products to increase market share & profitability.

2. Benefits derived as a result of the above R&D activities:

Major products developed by R&D and its significant benefits

1. Energy Saver products

Energy Saver products developed by the Company has got good response in the market. Corporations across the country are showing interest to adopt these products in their street lightings in order to save the energy and cut power cost considerably.

Benefits

- Guaranteed operating efficiency of 97% (higher than industry standards) with the use of highly efficient Toroidal transformers
- Dynamic Voltage reduction: provides stabilized voltage to the lamps
- Automatic On/Off based on Sunrise/Sunset or on programmed timings
- Wireless control and monitoring through sophisticated web-based software
- Automatic bypass in case of tripping with manual changeover in case of maintenance or emergency
- Reduces operational, maintenance and running cost
- Reliable and safe changeover with On-Load tap changing
- Completely remote programmable ON/OFF timings, alert and energy saving settings
- Instantaneous alerts for critical fault conditions to your mobile phone
- Energy saving reports and lamp failure reports on daily, weekly and monthly basis for single, multiple or all devices
- Detection of Energy theft or leakage
- Maintains a high power factor of above 0.85
- Guaranteed operating life of 10 years: No moving parts ensuring long life
- Eco-friendly - First in India to adhere to RoHS compliance
- Reduces public inconvenience
- Lighting levels conforming to ISI Standards

2. Automated Meter Reading

Benefits.

- All consumer lines (Energy Meters) are connected with AMR modules

ANNEXURE-3 (Contd.)

- All the AMR modules will communicate to a single IP, i.e. all the readings shall terminate at the central station
- Unpaid consumer accounts can be disconnected & re-connected from the central station itself
- Any tampering / fault occurrence of the meter can be found from the central station itself Hardware can be retrofitted to existing static energy meters
- Real-time data configurable for a frequency as less than 15/30 minutes is available in the Control Station
- Low implementation costs & Low Maintenance / Operating Cost
- AMR System becomes inherently expandable, i.e. addition of a new service at any point in the power line becomes plug n play
- Real-time data available

3. Other Products – Train Warning System, Energy saving Fan regulator, Ceiling Mount movement sensor, Touch cum remote switch, GE Earth Terminal, Bimetallic Overload Relay, Different Type of Sensors, Contactors and Overloaded relays upto 105 A, Motor protection circuit breakers, DC isolators for PV applications, Tinned Copper Wires etc., are developed by your R&D and are in different stage of testing and approval which will give considerable benefits on its usage.

Technology Absorption, Adaptation & Innovation

1. Efforts, in brief, made towards technology absorption, adaptation and innovation:

- The Company signed technical licensing agreement with Austria-based Trafomodern, Austria so to use former technology and design and assistance, to manufacture dry type air cooled transformers, Chokes and inductors in India. Dry type transformers is a highly specialised and technical product with applications in Medium & large UPS, renewable energy business, railways, power generation and the marine industry. Trafomodern is one of the leading manufacturers of dry type transformers in Europe.

The Company has set up state of the art manufacturing facility and commenced the production during the Third quarter in 2016-17.

- The Company signed a Distribution Agreement with IPD Group Limited of Australia – a Leading Electrical distributor/Wholesaler and manufacturer in Australia for marketing and

selling of Salzer Branded Electrical products for Solar Photovoltaic Applications in Australia and Newzland. This understanding with IPD opens to the Company a Large New Market for its internationally tested and approved products.

- Your Company acquired entire business undertaking of Salzer Magnet Wires Limited, engaged in the business of manufacturing of enamelled Copper Wires for various applications particularly for Motor Windings and Auto Electrical . As the result of acquisition, the product portfolio of your Company has got strengthened with additions of enamelled Copper Wires
- Your Company has also undertaken the development of Contactors for C3 Controls, USA who is one of the reputed manufacturer and supplier of the electrical goods worldwide.

2. During the year under review the following expenditures were incurred with regard to R & D:

• Capital Expenditure as additions to Plant & Machineries, Tools, Dies etc.,	- ₹ 903.68 Lakhs
• New Products and Process development	- ₹ 110.06 Lakhs
• Salary and other expenses for R&D personnel	- ₹ 97.50 Lakhs

4. Details of Imported Technology:

• Technology Imported	For the manufacture of (i) CAM Operated Rotary Switches (ii) Toroidal Transformers (iii) Three phase try type transformer
• Year of Import	(i) 1985 (ii) 1995 / 2005 (iii) 2016
• Has the technology been fully absorbed	Yes, Fully absorbed.

C. FOREIGN EXCHANGE EARNINGS AND OUTGO:

a) Foreign Exchange earned during the year (Direct export ₹ 5,215.52 lakhs, Merchant Export ₹ 2,126.17 lakhs & ₹ 91.40 Lakhs for technical services)	₹ 5,306.92 Lakhs
b) Foreign Exchange outgo	₹ 7609.38 Lakhs

ANNEXURE-8

FORM NO. MR-3 Secretarial Audit Report

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2018

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To

The Members,
Salzer Electronics Limited,
Samichettipalayam,
Coimbatore-641047.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. Salzer Electronics Limited (CIN:L03210TZ1985PLC001535), a listed entity having its registered office at Samichettipalayam, Coimbatore - 641047 (herein after called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Salzer Electronics Limited books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31.03.2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place (with respect to statutory provisions listed hereunder) to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31.03.2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999; Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards 1 & 2 issued by The Institute of Company Secretaries of India.
- (ii) Securities and Exchange Board of India (Listing Obligations and Disclosures Requirements) Regulation, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

ANNEXURE-8 (Contd.)

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with laws, rules, regulations and guidelines mentioned herein above.

I further report that during the audit period 2017-18, the Company has

- a. Allotted 1,48,500 equity shares under Salzer Electronics Limited Employees Stock Options Scheme 2012-13.
Entered into a Business Transfer Agreement with Salzer Magnet Wires Limited on acquisition of the whole of business undertaking as a going concern on slump sales basis on a consideration of ₹ 20.29 Crores being payable by way of other than cash.
- b. Accordingly the Company has allotted 10,30,000 equity shares of ₹ 10/- each at an issue price of ₹ 197/- per share through electronic mode (DeMat) with due compliance of relevant regulations there of as under:
- c. Allotted 5,00,000 equity shares under the Business Transfer Agreement to Salzer Magnet Wires Limited.
- d. Allotted 5,30,000 Non-Cumulative 5% Convertible Preference Shares under the Business Transfer Agreement to Salzer Magnet Wires Limited.
- e. The Company has also filed necessary applications with the Stock Exchanges viz. BSE Ltd. and National Stock Exchange of India Ltd. For listing 5,00,000 equity shares and got the listing and trading approval during April/May 2018.

MANAGEMENT DISCUSSION AND ANALYSIS

Forward looking statement -

Statements in this Management Discussion and Analysis of Financial Condition and Results of Operations of the Company describing the Company's objectives, expectations or predictions may be forward looking within the meaning of applicable securities laws and regulations. Forward looking statements are based on certain assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realized. The Company assumes no responsibility to publicly amend, modify or revise forward looking statements, on the basis of any subsequent developments, information or events. Actual results may differ materially from those expressed in the statement. Important factors that could influence the Company's operations include changes in government regulations, tax laws, economic developments within the country and such other factors globally.

The financial statements are prepared under historical cost convention, on accrual basis of accounting, and in accordance with the provisions of the Companies Act, 2013 (the Act) and comply with the IND AS Accounting standards. The Management of Salzer Electronics has used estimates and Judgments relating to the financial statements on a prudent and reasonable basis, in order that the financial statements, reflect in a true and fair manner, the state of affairs and profit for the year.

The following discussions on our financial condition and result of operations should be read together with our audited consolidated financial statements and the notes to these statements included in the annual report. Unless otherwise specified or the context otherwise requires, all references herein to "we", "us", "our", "the Company", "Salzer" are to Salzer Electronics Limited and its subsidiaries and associates.

ECONOMIC OVERVIEW

Growing transmission and distribution network and rural electrification program coupled with infrastructure development are the key factors driving the switchgear market in India. Government schemes and initiatives such as UDAY and DDUGJY are expected to further fuel the growth of switchgear market in the forecast period.

According to research, India switchgear market is projected to reach \$3.7 Billion by 2022. According to Niti Ayog, the government of India is planning to reach a renewable energy capacity of 175 GW by 2022. Further, government initiatives to increase the penetration of clean energy in the forecast period is also a major source of growth for the switchgear market in India. Low voltage switchgear dominated the overall India Switchgear market and also reflects the highest growth due to rapidly growing commercial and residential sectors. In medium voltage, AIS holds the major revenue share, however, gas insulated switchgear is expected to increase its market share in the forecast period.

The Northern region accounted for the largest revenue share in the country followed by the Western region. Uttar Pradesh, Tamil Nadu and Haryana states dominated the market with around 50% market share in terms of power sector investments. During 2016-22, the Northern and Southern region are anticipated to witness highest growth rate. (Source - http://www.6wresearch.com/market-reports/india-switchgear-market-2017-2022-by_voltage-indoor-outdoor-by_insulation-verticals-regions_northern+southern+eastern+western.html)

OTHER MAJOR SEGMENTS – TRANSMISSION AND DISTRIBUTION MACHINERY

- As per the latest data available during FY15–22, the size of transformers industry is expected to expand at a CAGR of 30.7 per cent to USD11.1 billion
- Domestic transformer industry has the capability to manufacture the whole range of power & distribution transformers, including transformers used for HVDC transmission up to 500 KV
- During FY15–22, the size of switch & control gears industry is expected to expand at a CAGR of 19.2 per cent to USD8.2 billion
- The switch gear industry in India manufactures the entire voltage range from 240 KV to 800 KV
- Significant advances have been made in control gears due to major developments in the field of technology
- Domestic electronic component manufacturers to invest USD 148.74 million in next few years in the Electronics Manufacturing

(Source – IBEF, Industry Reports)

ANNEXURE-9 (Contd.)

GOVERNMENT INITIATIVES IN ENGINEERING/ MANUFACTURING SECTOR

“MAKE IN INDIA” CAMPAIGN:

A key national initiative, the “Make in India” campaign is focused on making India a global manufacturing hub. The goal of this mega programme is to ensure that the manufacturing sector which contributes to about 16 per cent of India’s GDP increases to around 25 per cent in 2022. The major focus of this initiative is heavy industries and public enterprises. The increase in investment in the manufacturing sector would generate significant employment and empower secondary and tertiary industries as well.

SPECIAL ECONOMIC ZONES:

- Currently, India has over 37 SEZs spread across the country in the engineering sector. More than 20 additional SEZs have been formally approved by the Government of India, and are all set to be established in the next couple of years. The Delhi-Mumbai Industrial Corridor, being developed across seven major states is expected to further strengthen the growth of the Indian engineering sector.

SMART CITIES INITIATIVE:

- In order to accelerate the ‘Smart Cities Initiative’, the Ministry of Urban Development announced partnership with Bloomberg Philanthropies in June 2015, to facilitate creation of quality urban infrastructure. This partnership is expected to improve the quality of urban life and further drive engineering growth in India.

KEY GROWTH DRIVERS

- Growth of the engineering sector is linked to investments in the sectors of power, infrastructure, automobile, auto components etc.
- India’s power sector is the single largest revenue generator for engineering companies. This sector’s performance is driven primarily by the augmentation of capacity and restructuring of state electricity boards.
- The growth in capital goods sector is also directly related to the overall engineering sector. Industry competition, rising infrastructure demand, export incentives and conducive policy environment are expected to facilitate growth in this industry.
- Government projects such as the World Bank-funded Golden Quadrilateral Project and the

North-South and East-West corridors, which are focus areas for infrastructure development, have fuelled growth in the construction industry as well as in the overall industrial sector.

- The government has launched the ‘Make in India’ campaign, combined with detailed process and policy re-engineering to make India a Global Manufacturing Hub. The campaign is set to boost job creation in the manufacturing sector for the large young demographic of the country. The government also plans to reduce corporate tax from 30 per cent to 25 per cent over the next 4 years, which is expected to lead to higher levels of investment in Indian industry.
- By the end of 2020, India is expected to have 590 million middle class, which will drive demand in the auto sector, consumer goods, infrastructure etc. Engineering firms need to ensure they address the requirements of this segment with products of adequate quality. This opens a large avenue for both domestic and international investment in this sector, especially in the large manufacturing & infrastructure projects. This is estimated to be over and above the mid-and innumerable small engineering projects expected to be announced in the next couple of years.

(Source – IBEF, Industry Reports)

GLOBAL POWER & ELECTRICAL EQUIPMENT INDUSTRY

Global Electricity Market

- The demand for electricity worldwide is projected to grow at an annual rate of 2.4% for the period 2009–2035, driven by economic and population growth. Over 80% of the growth between 2009 and 2035 is expected to be in non-OECD countries.

Global Trade in Electrical Equipment

- Switchgears and rotating machines together cover around 34% of the trade market. China is the leading exporter in rotating machines as well as transformers with more than 16% share, while India has less than 2% share in global trade of these products. The US is the largest importer of rotating machines as well as transformers.

Transmission & Distribution Equipment

- India’s electrical equipment industry has witnessed significant growth in the last few years.

ANNEXURE-9 (Contd.)

- There is significant capacity in India's T&D equipment segment, which is operating broadly at 70% capacity utilization. The domestic T&D segment is geared to cater to the expected growth in the demand for T&D equipment.
- India has come a long way in electrical equipment manufacturing. Today, the country manufactures a large variety of electrical equipment. In the T&D segment, it makes and exports a wide array of equipment from transformers to cables. New technologies that are being introduced have been brought into the domestic manufacturing domain by foreign players. These players have come into India either independently and set up their own manufacturing facilities or through the JV route.

ABOUT SALZER

Salzer is a Leading player offering Total and Customized Electrical Solutions in Switchgears, Wires & Cables and Energy Management business. It is the largest manufacturer of CAM Operated Rotary switches & Wire Ducts in India, with a market share of 25 % & 20% respectively. The Company caters to a wide range of products with five In-house manufacturing facilities, located in Coimbatore.

The Company has a wide distribution network locally and globally, exporting to more than 40 countries. In India, Salzer markets its products through its own distributors and more than 350 local distributors of L&T. The Company has a strong R&D team that focuses on developing and commercializing the technologies of the products, and as a result, can offer total customized electrical solutions to its customers.

CONSOLIDATED FINANCIAL OVERVIEW

The consolidated performance of the Company for the financial year ended March 31, 2018, is as follows:

Total Net Revenue from operations at ₹ 442.8 crore for the year ended March 31, 2018, as against ₹ 385.0 crore for the corresponding previous period, an increase of 15.0%, mainly on account of increase in revenues across all businesses of Industrial Switchgears, Wires & Cables and Building Segment.

The raw materials consumed for the financial year ended March 31, 2018 were ₹ 323.5 crore as against ₹ 276.68 crore for the corresponding previous period, an increase of 16%.

The staff expenses for the financial year ended March 31, 2018 were ₹ 19.9 crore as against ₹ 18.7 crore

for the corresponding previous period, an increase of 5.9%.

The other expenses for the financial year ended March 31, 2018 were ₹ 46.2 crore as against ₹ 42.40 crore for the corresponding previous period, an increase of 9%.

The EBITDA (earnings before interest, depreciation and tax) was ₹ 53.3 crore for the year ended March 31, 2018, as against ₹ 44.1 crore for the corresponding previous period, an increase of 20.7%

The depreciation for the financial year ended March 31, 2018 was ₹ 10.5 crore, as against ₹ 8.9 crore for the corresponding previous period, an increase of 18.4%.

The EBIT (earnings before interest and tax) were ₹ 45.9 crore for the year ended March 31, 2018, as against ₹ 40.7 crore for the corresponding previous period, an increase of 12.7%

The interest for the financial year ended March 31, 2018 was ₹ 14.9 crore as against ₹ 14.6 crore for the corresponding previous period, an increase of 2.2%

The profit after tax for the financial year ended March 31, 2018 was at ₹ 20.0 crore as against ₹ 17.3 crores for the corresponding previous period, an increase of 15.4%.

The EPS (Earning per Share) for the financial year ended March 31, 2018 was ₹ 13.82 for a face value of ₹ 10 per share, as against ₹ 12.53 for the corresponding previous period.

RESOURCES AND LIQUIDITY

As on March 31, 2018, the consolidated net worth stood at ₹ 272.8 crore and total debt was at ₹ 114.8 crore.

The net debt to equity ratio of the Company stood at 0.60 as on March 31, 2018.

BUSINESS PERFORMANCE

Salzer primarily operates in four segments, viz. Industrial Switchgears, Copper Business, Building Segment and Energy Savers.

Industrial Switchgear

This business segment occupies the first place in contribution to the total business of the Company. This segment includes transformers, terminal blocks, rotary switches, isolators, general purpose relays, wiring ducts, MPCBs, contactors, control panels, and

ANNEXURE-9 (Contd.)

overload relays etc. The products are mainly targeted for the Original Equipment Manufacturers (OEMs) like Engineering Conglomerates Larsen & Toubro Limited etc., Panel Builders, special Machine Manufacturers etc. The Company commenced its operation in 1985 with this segment which is now having both domestic and export markets considerably. These products are having international certification like UL (Underwriters Laboratories Inc), CSA (Canadian Standards Association), Intertek Semko certification and CE (Conformite Europeenne).

During the year, this segment posted revenue of ₹ 204.03 Crs against ₹ 175.77 Crs record in FY17, with the growth of around 16.01% and contributed 45.01% to the top-line.

Copper business

The copper business comes second in contribution to the business. In the segment, Larsen and Toubro plays a major role in the off take. This vertical commenced some 15 years back and focusing more on domestic market. After few years of flat performance, the segment witnessed robust recovery and during the year, the segment reported business revenue of ₹ 223.06 Crs as against ₹ 174.98 Crs with year on year growth of around 27%.

The copper division includes wires and cables, flexible bus bars, enamelled wires, bunched conductors and tinned wires.

Building Segment

Salzer has a wide range of products under this segment including modular switches, wires and cables, changeovers and MCBs. Modular Switches drives this segment in a major way.

Some of the features are:

- Contemporary and aesthetically sleek switches - 10, 20 and 32 Amps AC
- Silver nickel contacts for enhanced electrical life
- Manufactured using high-grade engineering plastics
- Safety features: anti-spark shield and finger-protected switch terminals
- Specialty products viz. movement sensors, shock protectors, shaver sockets, key tag switch, programmable timers, remote switches and touch switches etc.

During the year, the Buildings Products business contributed 4.71% of total revenues.

Energy Savers

The energy saving business is a new business vertical and expects to further boost growth by focusing on the manufacturing and installation of energy saving and efficient products like street light controllers and energy saving panels.

RISKS AND CONCERNS –

The Company faces the following Risks and Concerns:

Commodity risk:

A part of the business is substantially dependent on copper. Factors that could affect the copper business include rising copper prices. However, this increase in prices is passed on to the customer, and as the Company operates on a monthly average pricing mechanism, it does not expect to be significantly affected by this risk.

Competition Risk

This risk arising from more players wanting to be a part of this business. Like in most other industries, opportunity brings with itself competition. In each individual business segment the Company faces different kinds of competition risk from both domestic manufacturers and bigger international companies. However, Salzer's strong reputation, its brand goodwill and ability to customize orders as per its customers requirements has differentiated the Company from its competitors. Over the years, the Company has expanded its presence geographically and added more customers. It also offers total and customized electrical solutions to its customers. As a result, the Company has achieved a 'Preferred Supplier' status with GE and Schneider who source their products from Salzer on a global basis. The Company also has a substantial advantage over others due to the superior quality of infrastructure, customer-centric approach and highly innovative approach. Thus, the Company does not expect to be significantly affected by this risk.

Regulatory Risk

If the Company is unable to obtain the required certifications and approvals for existing and new products, growth will be affected. However, the Company has all the necessary international certifications for existing products. Moreover, with the previous experience of obtaining the necessary certifications for new products, the Company does not expect this risk to affect it in the coming years.

ANNEXURE-9 (Contd.)

Execution risk

The Company is planning to expand its product range as well as add technologically-advanced new products. The execution of the project is dependent on land purchase and project management skills. However, land acquisition is not a concern as the Company has a sufficient land-bank to increase capacity and support the addition of new products.

Concerns like unprecedented natural calamities, political/ social turmoil may remain. However, these threats are faced by the whole industry. With improved and efficient processes in place, the Company is well-positioned for sustainable growth.

Forex risk

Given the volatile global economy and fluctuations in the foreign exchange market, the Company does face forex risk. In order to mitigate this, hedging tools have been adopted to arrest the negative impact. Importantly, Salzer has a natural hedge having both import and export at appropriate values and as the result, any volatility in the forex market does not have a significant material impact on the business.

OPPORTUNITIES

- Domestic demand to sustain the envisaged annual GDP growth rate of around 8-9% over the next 20 years, it has been estimated that India will require to increase its electricity generation capacity by around five times by 2032
- Rapid growth in metros, airports and other infrastructure projects is expected to generate huge demand for matching BTG and T&D equipment
- External demand: Currently, share of India's exports in the global market is less than 1 per cent. With the electricity sector being a sunrise sector across the entire developing world, there exists a significant export potential for the domestic industry

THREATS

- Competition from local and multinational players
- Execution risk
- Regulatory changes
- Raw Material Cost

HUMAN RESOURCES

The Company has proper human resource and industry relations policies, which are reviewed periodically. The human resource team conducts various training sessions for employee development on an ongoing basis. These development programs are aimed at augmenting employee potential and represent an integral part of the overall business goals. Besides, employees profile represents a well balanced mix of experience and youth.

Way Ahead

India's outlook remains positive with economic growth expected to rebound. The implementation of the Goods and Service Tax promises a unified taxation regime. This could enhance the efficiency of production and movement of goods and services across India. This critical fiscal policy could make an important contribution to raise India's medium-term GDP growth to >8%. The Union Budget laid a keen emphasis on infrastructural development, which is supposed to have a cascading multi-sectoral impact. Finally, the Central Government's policies towards achieving fiscal consolidation, reforming the agricultural sector and the labour market while moderating inflation are expected to accelerate India's economic growth over the medium-term. (Source: IMF)

Considering the Government's commitment to the development of sector in the next five years through ambitious investment, private sector investment is bound to increase substantially Salzer expects to capitalize on all opportunities. Besides, Salzer also works on sourcing global technologies to make products in India under the theme of 'Make in India' an initiative by the Government in making products locally. As a part of the Make in India story, Salzer enters into a tie-up with global firms, for importing technologies to make different products and commenced commercial production.

INDEPENDENT AUDITOR'S REPORT

"To

The Members of **Salzer Electronics Limited**"

REPORT ON THE STANDALONE IND AS FINANCIAL STATEMENTS

We have audited the accompanying standalone IND AS financial statements of SALZER ELECTRONICS Limited ("**the Company**"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss, (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow for the year then ended, and a summary of the significant accounting policies and other explanatory information. (hereinafter referred to as "standalone IND AS financial statements")

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE IND AS FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and Presentation of these Standalone IND AS financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (IND AS) specified under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these Standalone IND AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone IND AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone IND AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone IND AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone IND AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone IND AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone IND AS financial statements.

INDEPENDENT AUDITOR'S REPORT (Contd.)**OPINION**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, its cash flows and the changes in equity for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS:

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section(11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable .
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Standalone IND AS Financial Statements.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards (IND AS) specified under section 133 of the Act, read with the relevant Rules issued there under.
 - e) On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, a separate Report has been given in "Annexure B", and
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations in its financial position in its Standalone IND AS financial statements – Refer note no.31.1.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE 'A'

TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF SALZER ELECTRONICS LIMITED

(REFERRED TO IN PARAGRAPH 1, OF REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS)

The Annexure referred to in Independent Auditors Report to the members of the Company on the Standalone IND AS Financial Statements for the year ended March 31, 2018.

According to the information and explanations sought by us and given by the Company and the books and records examined by us during the course of our Audit and to the best of our knowledge and belief we report the following:

- (i)
 - (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - (b) The fixed assets of the Company have been physically verified in a phased periodical manner, by the management, which in our opinion is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
 - (c) The title deeds of all the immovable properties of the Company shown under the Fixed Assets schedule are held in the name of the Company.
- (ii) The physical verification of the inventory has been conducted by the Management at reasonable intervals. The Company has maintained proper record of inventory and no material discrepancies were noticed on physical verification of inventories as compared to the book records
- (iii) The Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act 2013 during the financial year.
- (iv) The Company has not granted loans or made investments or given guarantees and securities during the year and hence compliance with section 185 and 186 are not applicable.

(v) The Company has not accepted any deposits and therefore paragraph 3(v) of the order is not applicable to the Company.

(vi) The Central Government has prescribed the maintenance of cost records under section 148(1) of the Act. We have broadly reviewed the accounts and records of the Company in this connection and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however carried out a detailed examination of the cost records with a view to determine whether they are accurate and complete.

vii. In respect of statutory dues:

- a) According to the records of the Company, undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess, Goods and Services Tax and other material statutory dues have been generally regularly deposited with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of the aforesaid dues were outstanding as at March 31, 2018 for a period of more than six months from the date of being payable.
- b) Details of dues of Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty and Value Added Tax which have not been deposited as on March 31, 2018 on account of disputes are given below:

Name of the Statute	Nature of dues	Amount	Forum where the dispute is pending
Central excise Act	Customs / Excise duty	₹ 97,68,260/- (out of which ₹ 12 lakh was paid under protest)	CESTAT - APPEAL

viii. The Company has not borrowed loans from any financial institutions and has not issued any debentures till date.

- ix. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loan during the year. Accordingly, clause 3(ix) of the order is not applicable.
- x. No fraud by the Company or fraud on the Company by its officers or employees has been noticed or reported during the year.
- xi. In our opinion the managerial remuneration has been paid in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule of the Act.
- xii. The Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- xiii. In our opinion the transactions with the related parties in compliance with Sections 177 and 188 of the Act and details of such transactions have been disclosed in the financial statements etc, as required by the applicable accounting standards.
- xiv. The Company has made allotment of 10,30,000 shares on preferential basis, in accordance with Chapter VII of SEBI (Issue of Capital and Disclosure Requirements) Regulations 2009 during the year under the review for a total value of ₹ 20.29 Crs as consideration other than cash, to Salzer Magnet Wires Limited upon acquisition of whole of its business undertaking.
- xv. The Company has not entered into non-cash transactions with directors or persons connected with them. Accordingly clause 3(xv) of the order is not applicable.
- xvi. The Company is not required to be registered under section 45-1A of the Reserve Bank of India Act 1934.

ANNEXURE 'B'

TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF SALZER ELECTRONICS LIMITED

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of SALZER ELECTRONICS LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statement of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to

obtain the reasonable assurance whether adequate internal financial controls over financial reporting was established and maintained and if such controls were operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directions of the Company; and

- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

Significant Accounting Policies

Note No.1

I. Corporate Information:

Salzer Electronics Limited, incorporated in January 1985, for manufacture of Electrical Installation Products and Components viz., CAM Operated Rotary switches, Selector Switches, Wiring Ducts, Voltmeter Switches, copper wires and cables and allied products addressing customers in the electrical equipment, power, medical equipment, automotive as well as renewable and uninterrupted power system spaces, in a single and unified segment.

The company is listed in BSE Limited and National Stock Exchange Limited

II. GENERAL INFORMATION AND STATEMENT OF COMPLIANCE WITH IND AS:

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented. These financial statements for the year ended March 31, 2018 are the first financial statements that the Company has prepared in accordance with Ind AS. For all the periods up to and including the year ended March 31, 2017, the Company had prepared its financial statements in accordance with Accounting Standards notified under Section 133 of the Act, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP), which have been adjusted for the differences in the accounting principles adopted by the Company on transition to Ind AS, with the date of transition to Ind AS being April 01, 2016. For the purpose of comparatives, financial statements for the year ended March 31, 2017 and opening balance sheet as at April 01, 2016 are also prepared as per Ind AS. The financial statements for the year ended March 31, 2018 were authorized and approved for issue by the Board of Directors on 24.05.2018. Refer Note 48 for optional exemptions and mandatory exceptions availed on First time adoption of Ind-AS.

III. Basis of Preparation:

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India.

The Financial Statements have been prepared & presented on the historical cost basis except for certain financial instruments measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes in to account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on the basis stated above, except for Accounting for Leases that are within the scope of Ind AS 17 and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use under Ind AS 36. In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

IV. USE OF ESTIMATES:

The preparation of financial statements is in conformity with generally accepted accounting principles which require the management of the Company to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Application of accounting policies that require significant accounting estimates involving complex and subjective judgments and the use of assumptions in these Financial statements have been disclosed separately under the heading "Significant accounting Judgements, estimates and assumption".

V. CURRENT VERSUS NON-CURRENT CLASSIFICATION

The entity presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current, when:

- It is expected to be realized or intended to be sold or consumed in normal operating cycle
- It is held primarily for the purpose of trading
- It is expected to be realized within twelve months after the reporting period, or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is classified as current, when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The entity classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

VI. FOREIGN CURRENCY TRANSACTIONS

Functional and presentation currency

The financial statements are presented in Indian Rupee which is also the functional and presentation currency of the Company. All amounts have been rounded-off to the nearest rupee.

(a) Initial recognition

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

(b) Conversion

Foreign currency monetary items are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise.

(c) Forward Contract

Premium/ Discount in respect of Forward Contract are amortized as expense/income over the period of contract. Exchange differences arising on forward contracts between the exchange rate on the date of transaction and the exchange rate prevailing at the year end is recognized in the Statement of Profit and Loss.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**VII. PROPERTY, PLANT AND EQUIPMENT:**

Property, Plant and Equipment (PPE) is recognized when the cost of an asset can be reliably measured and it is probable that the entity will obtain future economic benefits from the asset.

PPE is measured initially at cost. Cost includes the fair value of the consideration given to acquire the asset (net of discounts and rebates) and any directly attributable cost of bringing the asset to working condition for its intended use (inclusive of import duties and non-refundable purchase taxes). Subsequent expenditure relate to an item of PPE is capitalized if it meets the recognition criteria.

On the date of transition to Ind AS, the items of Property, Plant and Equipment have been measured at their carrying value, except for certain class of assets which are measured at fair value as 'deemed cost' in accordance with IND AS 101.

Foreign exchange gain/loss arising on foreign currency denominated borrowing which are not hedged that were incurred to acquire PPE are recorded in the cost of the asset as per Ind AS 101 Para D13AA and Ind AS 21 Para 7A and depreciated over their remaining useful life. In respect of exchange gain/loss arising from foreign currency denominated borrowings which are hedged, accounting has been done based on hedge effectiveness either as derivate/cash flow hedge as per Ind AS 109.

Depreciation:

The depreciable amount of PPE (being the Gross carrying value less the estimated residual value) is depreciated on a systematic basis over its useful life.

In respect of certain classes of PPE, the Company uses different useful life other than those prescribed in Schedule II to the Act. The useful life of such class of PPE has been ascertained based on technical review by a Chartered Engineer and assessment by the management as detailed in the following table:

Class of Assets	Useful Lives
Building	30Years
Plant and equipment	15 Years
Windmill	22Years
Electrical Machinery solar	30 years
Furniture and Fixtures	10 Years
Vehicles	8 Years

De-recognition:

An item of PPE is derecognized at the time of its disposal or when it is assessed that no further economic benefit would accrue from it. The gain/loss arising out of such disposal/ retirement is taken to Statement of Profit or Loss.

VIII. INVESTMENT PROPERTY:

Investment property is a property, being a land or a building or part of a building or both, held by the owner or by the lessee under a finance lease, to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of business.

Investment properties (if any), are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

IX. INTANGIBLE ASSETS AND AMORTIZATION:

An intangible asset is an identifiable non-monetary asset without physical substance.

Intangible assets are recognized only if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

Computer software licenses are capitalized on the basis of costs incurred to acquire and bring to use the specific software. Operating software is capitalized and amortized along with the related fixed asset.

The Company has used the following useful lives to amortize its intangible assets:

Class of Assets	Useful Lives
Computer software	3Years

Internally generated intangible assets. Refer discussed paper

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

X. RESEARCH AND DEVELOPMENT EXPENDITURE:

Research & Development expenditure is charged to revenue under the natural heads of account in the year in which it is incurred. However, expenditure incurred at development phase, where it is reasonably certain that outcome of research will be commercially exploited to yield economic benefits to the Company, is considered as Property, plant and equipment or Intangible Asset and depreciated in accordance with the policies stated above.

XI. IMPAIRMENT OF NON-FINANCIAL ASSETS:

The Company periodically assesses whether there is any indication that an asset or a group of assets comprising a cash generating unit may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. For an asset or group of assets that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. An impairment loss is reversed only to the extent that the amount of asset does not exceed the net book value that would have been determined if no impairment loss had been recognized.

XII. INVENTORIES:

Inventories are carried at the lower of cost and net realizable value.

Cost includes all applicable costs incurred in bringing the properties to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Cost of raw materials including, consumables and stores & spares are determined on FIFO (First In First Out) Basis.

Cost of work-in-progress is valued at cost of materials and labour together with relevant factory overheads. The cost of work-in progress is determined on the basis of weighted average method. The finished goods are valued at cost inclusive of excise duty (or) net realizable value whichever is less.

XIII. FINANCIAL INSTRUMENTS:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI);
- Debt instruments and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Debt instruments at amortized cost:

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI:

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

Debt instrument at FVTPL:

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments (other than investments in subsidiaries and joint ventures):

All equity investments within the scope of Ind AS 109, 'Financial Instruments', are measured at fair value either through statement of profit and loss or other comprehensive income. The Company makes an irrevocable election to present in OCI the subsequent changes in the fair value on an instrument-by-instrument basis. The classification is made on initial recognition.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, impairment gains or losses and foreign exchange gains and losses, are recognized in the OCI. Any gains or losses on de-recognition is recognized in the OCI and are not recycled to the statement of profit or loss.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

De-recognition of Financial Assets:

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily de-recognized when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Investment in Subsidiaries, Associates and Joint ventures:

The Company's investment in equity instruments of Subsidiaries, Associates and Joint venture are accounted for at cost as per Ind AS 27.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

2. Financial Liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and transaction cost (if any) that is attributable to the acquisition of the financial liabilities is also adjusted.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

a. Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are de-recognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

b. Trade and other payables

These amounts represent liabilities for goods or services provided to the Company which are unpaid at the end of the reporting period. Trade and other payables are presented as current liabilities when the payment is due within a period of 12 months from the end of the reporting period. For all trade and other payables classified as current, the carrying amounts approximate fair value due to the short maturity of these instruments. Other payables falling due after 12 months from the end of the reporting period are presented as non-current liabilities and are measured at amortized cost unless designated as fair value through profit and loss at the inception.

c. Other financial liabilities at fair value through profit or loss:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Gains or losses on liabilities held for trading are recognized in the profit or loss.

De-recognition of Financial Liabilities:

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or Modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

3. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

4. Compound Financial Instruments:

A financial instrument that comprises of both the liability and equity components are accounted as compound financial instruments. The fair value of the liability component is separated from the compound instrument and is subsequently measured at amortized cost. The residual value is recognized as equity component of other financial instrument and is not re-measured after initial recognition.

The transaction costs related to compound instruments are allocated to the liability and equity components in the proportion to the allocation of gross proceeds. Transaction costs related to equity component is recognized directly in equity and the cost related to liability component is included in the carrying amount of the liability component and amortized using effective interest method.

XIV. IMPAIRMENT OF FINANCIAL ASSETS:

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

credit losses or at an amount equal to the life time expected credit losses, if the credit risk on the financial asset has increased significantly since initial recognition.

XV. FAIR VALUE MEASUREMENT:

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or

- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

XVI. REVENUE RECOGNITION:**a. Revenue from sale of goods and services:**

Revenue is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of returns and discounts to customers.

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership in the goods are transferred to the buyer, which is mainly upon delivery, the amount of revenue can be measured reliably, and the recovery of consideration is probable. Revenue from the sale of goods includes excise and other duties which the Company pays as a principal but excludes amounts collected on behalf of third parties, such as goods and service tax (GST), sales tax and value added tax, as applicable.

Export Benefits are recognized as revenue when the right to receive credit as per the terms of the entitlement is established in respect of exports made.

Revenue from services is recognized when the services are rendered.

b. Revenue from Projects

Revenue from contracts which involves supply of material and services over the contract period is measured using the proportionate completion method. Under the percentage of completion method, revenue is recognized in proportion that the contract costs incurred for work performed up to the reporting date bear to the estimated total contract costs. The amount recognized is net of goods and service tax (GST), sales tax, service tax and other amounts collected from the customer in the capacity of an agent, as applicable. In cases where the total project

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

cost is estimated to exceed the total estimated revenue from a project, the loss is recognized immediately.

Contract costs include the estimated material costs, installation costs and other directly attributable costs of the project.

Contract revenues represent the aggregate amounts of fair value of sale price for agreements entered into and are accrued based on the percentage that the actual construction costs incurred until the reporting date bears to the total estimated construction costs to completion.

The estimates for contract costs are reviewed by the management periodically and the cumulative effect of the changes in these estimates, if any, are recognized in the period in which these changes may be reliably measured.

c. Dividend income:

Income from dividends are recognized when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

d. Interest Income:

Interest income, including income arising from other financial instruments, is recognized using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss. The expected cash flows are reassessed on a yearly basis and changes, if any, are accounted prospectively.

e. Other Operating Revenue:

Other Operating revenue comprises income from ancillary activities incidental to the operations of the Company and are recognized when the right to receive the income is established as per the terms of the contract.

XVII.LEASES:

a. Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

b. Company as a Lessee

Assets acquired under lease where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such lease is capitalized at the inception of the lease at lower of the fair value or the present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

Assets acquired on lease where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating lease. Lease rentals on assets taken on operating lease are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

XVIII.EMPLOYEE BENEFITS

1. Short Term and other long term employee benefits:

A liability is recognized for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Compensated leave absences are encashed by employees at year end and no carry forward of leave is permitted as per the leave policy.

2. Post-Employment Benefits**a. Defined Contribution Plans**

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company makes specified monthly contributions towards Provident Fund and Superannuation Fund. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

b. Defined Benefit Plans

For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognized in OCI in the period in which they occur. Re-measurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment.

XIX. SHARE BASED PAYMENTS ARRANGEMENTS

Equity-settled share based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share based payments transactions are set out in the Note No. 40.

The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in Statement of Profit and Loss such that the cumulative expenses reflects the revised estimate, with a corresponding adjustment to the Share Based Payments Reserve.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

XX. BORROWING COSTS:

Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalized until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs are charged to statement of profit and loss.

XXI. PROVISIONS:

A provision is recognized when an enterprise has a present obligation (legal or constructive) as result of past event and it is probable that an outflow of embodying economic benefits of resources will be required to settle a reliably assessable obligation. Provisions are determined based on best estimate required to settle each obligation at each balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

Provision for warranty:

Provision for expected cost of warranty obligations are recognized based on management's best estimate of the expenditure required to settle the obligations which takes into account the empirical data on the nature, frequency and average cost of warranty claims and regarding possible future incidents.

XXII.CONTINGENT LIABILITIES AND CONTINGENT ASSETS:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent Assets are not recognized but are disclosed when the inflow of economic benefits are probable.

XXIII.EARNINGS PER SHARE:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares (if any) are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and consolidation of shares if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

XXIV.TAXES ON INCOME:

Tax expense comprises of current and deferred tax.

a. Current income tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in equity is recognized in other comprehensive income / equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

b. Deferred tax

Deferred tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

c. Minimum Alternate Tax:

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. The carrying amount of MAT is reviewed at each reporting date and asset will be written down to the extent the Company's right of adjustment would lapse.

Accordingly, MAT is recognized as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

XXV. CASH AND CASH EQUIVALENTS:

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

XXVI. STANDARDS ISSUED OR MODIFIED BUT NOT YET EFFECTIVE**IND AS 115**

The Ministry of Corporate Affairs, on 28.3.2018 notified Ind AS 115 – Revenue from contracts with customers as part of Company's (Indian Accounting Standards) Amendment Rules, 2018. The new standard is effective from accounting periods beginning on or after 1.4.2018.

The new standard replaces existing revenue recognition standards Ind AS 11,

Construction Contracts and Ind AS 18, Revenue and revised guidance note of the Institute of Chartered Accountants of India (ICAI) on Accounting for Real Estate Transactions for Ind AS entities issued in 2016.

The core principle of the new standard is that revenue should be recognized when an entity transfers control of goods or services to customer at the amount to which the entity expects to be entitled to. Ind AS-115 requires perceiving revenue from customer point of view – whether the customer has received a standalone benefit from the goods or services it has received.

The other fundamental change is that an entity recognizes the revenue when controls of the underlined goods or services are transferred to the customer. This is different from the current

"risk and reward model" under Ind AS 18, where revenue is recognized on transfer of risk and reward to the customer.

The new model is expected to bring about significant changes in the way the company recognize, present and disclose their revenue.

The standard permits two possible methods of transition: Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach) The Company is evaluating the requirement of the amendment and the impact on the financial statements. In light of the introduction of Ind AS 115, the company would have to evaluate its revenue recognition policy and more specifically on the PPP project in line with the revised standard.

IND AS 21

On 28th March, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from 1st April 2018. The Company is evaluating the requirement of the amendment and the impact on the financial statements.

Significant accounting judgments, estimates and assumptions:

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgments, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgments that the management has made in the process of applying the Company's accounting policies:

a) Recognition of deferred tax assets:

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

b) Revenue recognition, contract costs:

The Company uses the percentage of completion method for recognition of revenue, accounting for unbilled revenue and contract cost thereon for its contractual projects. The percentage of completion is measured by reference to the stage of the projects and contracts determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Significant assumptions are required in determining the stage of completion, the extent of the contract cost incurred to the estimated total contract revenue and contract cost and the recoverability of the contracts. These estimates are based on events existing at the end of each reporting date.

c) Provision and contingent liability:

On an ongoing basis, the Company reviews pending cases, claims by third parties and

other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements.

d) Useful lives of depreciable assets:

Management reviews the useful lives of depreciable assets at each reporting Period. As at March 31, 2017 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

e) Evaluation of indicators for impairment of assets:

The evaluation of applicable indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

f) Defined benefit obligation:

Management's estimate of the Defined Benefit obligation is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may impact the obligation amount and the annual defined benefit expenses.

g) Fair value measurements:

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)
Note No. 39 GRATUITY

The details of various employee benefits provided to employees are as under:

A. Defined Contribution and other plans

(₹ in Lakhs)		
Particulars	March 31, 2018	March 31, 2017
Employer's Contribution to PF	76.67	77.54
Employer's Contribution to ESIC	21.06	9.11
Employer's Contribution to Superannuation fund	3.15	3.40
TOTAL	100.88	90.05

B. Defined Benefit plans

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, as defined benefit plan. The gratuity plan provides for a lump sum payment to the employees at the time of separation from the service on completion of vested year of employment i.e. five years. The liability of gratuity plan is provided based on actuarial valuation using the projected unit credit method as at the end of each financial year based on which the Company contributes the ascertained liability to Life Insurance Corporation of India with whom the plan assets are maintained.

These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, salary risk and longevity risk.

Investment risk: The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk: A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Longevity risk: The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Principal actuarial assumptions

Principal actuarial assumptions used to determine the present value of the defined benefit obligation are as follows:

(₹ in Lakhs)		
Particulars	March 31, 2018	March 31, 2017
Discount Rate	7.70% / 7.59%	7.34% / 7.31%
Expected Return on Assets	7.70% / 7.59%	7.34% / 7.31%
Salary Escalation	0.06	0.06
Attrition Rate	0.05	0.05

- **Mortality :** Indian Assured Lives Mortality (2006-08)

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)
Note No. 40 EMPLOYEES STOCK OPTION SCHEME 2012-13

- Pursuant to the decision of the shareholders, at their meeting held on 11.08.2012, the Company had established an "Employees' Stock Option Scheme 2012-13" (ESOS 2012-13 or the Scheme) being administered by the Employees' Compensation Committee (ECC) of the Board of Directors.
- Under the Scheme, option not exceeding 10,28,000 have been reserved to be issued to the eligible employees. The option granted under the scheme vest not less than 1 year from the date of grant of option. The option granted to the employees would be capable of being exercised within a period of 5 years from the date of vesting.
- Accordingly, 10,28,000 options were granted to the employees on November 19, 2013 with vesting period of one year at a grant price ₹ 40/- against the closing market price of ₹ 48.60/- on November 18, 2013 resulting in an employee compensation cost of ₹ 88,40,800/- which has duly been written off during the vesting period.
- All the granted options vested on November 19, 2014 with the exercise period of five years therefrom. During the year, the Company has allotted 148500 shares upon exercise of stock options by the employees and an amount of ₹ 38.82 Lakhs received from the Employees on exercise of options and against which, allotment is pending as at March 31, 2018.
- Ind AS 101 encourages, but does not require, first time adopters to apply Ind AS 102 Share based Payment to equity instruments that were vested before the date of transition to Ind AS. The Company has elected not to apply Ind AS 102 to options that vested prior to April 1, 2016.
- Accordingly, the Employees' Compensation Cost as determined under Intrinsic Value Method, had been written off over the vesting period and credited to Reserve & surplus Account under the head "Employees Compensation Cost." As and when the shares are being allotted against exercise of options, the relevant amount is transferred from this head and credited to Share Premium Account.
- There were no modifications to the Scheme during the year ended March 31, 2018 and March 31, 2017. As at the end of the financial year, details and movements of the outstanding options are as follows:

(₹ in Lakhs)				
Particulars	March 31, 2018		March 31, 2017	
	No. of options	Weighted average exercise price	No. of options	Weighted average exercise price
Options outstanding at the beginning of the year	6,04,550	40	7,29,550	40
Options granted during the year	-	40	-	40
Options lapsed during the year	-	40	-	40
Options exercised during the year	1,48,500	40	1,25,000	40
Options expired during the year	-	40	-	40
Options outstanding at the end of the year	4,56,050	40	6,04,550	40
Options exercisable at the end of the year	4,56,050	40	6,04,550	40

ii. Fair Value Hierarchy

The Company has classified its financial instruments into three levels in order to provide an indication about the reliability of the inputs used in determining fair values.

- (i) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- (ii) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- (iii) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**Note No. 45 FAIR VALUE MEASUREMENTS (CONTD.)****Fair value hierarchy of financial assets and liabilities measured at fair value as at March 31, 2018**

The carrying amounts of trade receivables, cash and cash equivalents, other bank balances, loans, other financial assets, current borrowings, trade payables and other current financial liabilities are a reasonable approximation of their fair values. Accordingly, the fair values of such financial assets and financial liabilities have not been disclosed separately.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

iii. Valuation technique used to determine fair value

- The fair value of the financial assets and liabilities are at the amount that would be received to sell an asset and paid to transfer a liability in an orderly transaction between market participants at the measurement date.
- The carrying amounts of trade receivables, cash and cash equivalents, other bank balances, loans, other financial assets, current borrowings, trade payables and other current financial liabilities are a reasonable approximation of their fair values.
- The investment included in Level 3 hierarchy have been valued at cost approach to arrive at the fair values. The cost of unquoted investment approximate the fair value as there is a wide range of possible fair value measurement and the cost represents estimate of fair value within that range.
- The estimated fair value amounts as at March 31, 2018 have been measured as at that date. As such, the fair values of these financial instruments subsequent to reporting date may be different than the amounts reported at each year-end.
- There were no transfers between Level 1, Level 2 and Level 3 during the year

Note No. 46 FINANCIAL RISK MANAGEMENT

The Company's businesses are subject to several risks and uncertainties including financial risks.

The Company's activities expose it to credit risk, liquidity risk, market risk - interest rate risk and foreign currency risk. The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Ageing analysis, Credit ratings
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts
Market risk – Interest rate risk	Long-term borrowings at variable rates	Cash flow forecasting, Sensitivity analysis
Foreign Currency risk	Recognized financial assets and liabilities not denominated in functional currency	Cash flow forecasting, Sensitivity analysis

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

The Company's credit risk generally arises from Cash and cash equivalents, trade receivables, and other financial assets.

Credit Risk Management

The Group assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**Note No. 46 FINANCIAL RISK MANAGEMENT (CONTD.)**

Assets Group	Description of category	Particulars	Provision for expected credit loss *
Low credit risk	Assets where the counter-party has strong capacity to meet the obligations and where the risk of default is negligible or nil	Cash and cash equivalents, other bank balances, investments, loans, trade receivables and other financial assets	12 month expected credit loss/life time expected credit loss
Moderate credit risk	Assets where the probability of default is considered moderate, counter-party where the capacity to meet the obligations is not strong	Nil	12 month expected credit loss/life time expected credit loss
High credit risk	Assets where there is a high probability of default.	Nil	12 month expected credit loss/life time expected credit loss/fully provided for
* Life time expected credit loss is provided for trade receivables.			

Based on business environment in which the Company operates, a default on a financial asset is considered when the counterparty fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions. Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

Classification of Financial assets among risk categories:

(₹ in Lakhs)

Credit rating	Particulars	March 31, 2018	March 31, 2017	April 01, 2016
Low credit risk	Cash and cash equivalents, other bank balances, investments, loans, trade receivables and other financial assets	20,643.87	19,597.56	17,655.02
Moderate credit risk	-	-	-	-
High credit risk	-	-	-	-

The loss allowance for trade receivables using expected credit losses for different ageing periods as at March 31, 2018 are as follows:

Particulars	Not Due	Less than 6 months past due	More than 6 months past due	Total
Gross Carrying Amount	7,899.09	2,782.80	3,324.06	1,4005.96
Loss allowance provision	-	-	(84.25)	(84.25)
Net	7,899.09	2,782.80	3,239.81	13,921.71
High credit risk	-	-	-	-

The loss allowance for trade receivables using expected credit losses for different ageing periods as at March 31, 2017 are as follows:

Particulars	Not Due	Less than 6 months past due	More than 6 months past due	Total
Gross Carrying Amount	7,959.42	3,854.98	2,116.65	13,931.05
Loss allowance provision	-	-	(60.25)	(60.25)
Net	7,959.42	3,854.98	2,056.40	13,870.80
High credit risk	-	-	-	-

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)
Note No. 46 FINANCIAL RISK MANAGEMENT (CONTD.)

The loss allowance for trade receivables using expected credit losses for different ageing periods as at April 01, 2016 are as follows:

Particulars	Not Due	Less than 6 months past due	More than 6 months past due	Total
Gross Carrying Amount	6,566.46	4,753.36	294.68	11,614.50
Loss allowance provision	-	-	(105)	(105.00)
Net	6,566.46	4,753.36	189.68	11,509.50

As per simplified approach, the Company makes provision of expected credit losses on trade receivables based on past experiences to mitigate the risk of default in payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

Reconciliation of loss allowance for trade receivables

Particulars	March 31, 2018	March 31, 2017
Balance at the beginning of the year	60.25	105.00
Additions during the year	24.00	-
Amounts written off during the year	-	(44.75)
Amounts recovered during the year	-	-
Balance at the end of the year	84.25	60.25

Exposure to customers having more than 5% of outstanding in respect of Trade Receivables.

Particulars	March 31, 2018	March 31, 2017	April 01, 2016
AMERICAN POWER CONVERSION	-	-	711.96
LARESEN & TOUBRO	2,052.61	1,469.80	1,944.47
SALZER MAGNET WIRES LTD	-	2,101.56	770.29
S.H INDUSTRIES	-	736.81	-
TIRUPUR & VELLORE CORPORATION	2,029.89	2,074.50	-
Total	4,082.50	6,382.67	3,426.72

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the business, the Company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Maturities of Financial Liabilities as at March 31, 2018 are as follows:

Particulars	Less than 1 year	1-5 years	More than 5 years	Total
Borrowings	12,777.78	765.22	-	13,543.00
Trade Payables	3,630.94	-	-	3,630.94
Other financial Liabilities	1,025.14	21.02	5.57	1,051.73

Maturities of Financial Liabilities as at March 31, 2017 are as follows:

Particulars	Less than 1 year	1-5 years	More than 5 years	Total
Borrowings	10,304.78	1,182.49	-	11,487.27
Trade Payables	2,841.70	-	-	2,841.70
Other financial Liabilities	1,073.51	21.32	1.12	1,095.95

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**Note No. 46 FINANCIAL RISK MANAGEMENT (CONTD.)**

Maturities of Financial Liabilities as at April 1, 2016 are as follows:

Particulars	Less than 1 year	1-5 years	More than 5 years	Total
Borrowings	8,133.15	1,767.94	-	9,901.09
Trade Payables	2,968.78	-	-	2,968.78
Other financial Liabilities	1,040.99	18.20	5.37	1,064.56

Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates etc. could affect the Company's income or the value of its holdings of financial instruments including cash flow. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximising the return.

Interest rate Risks

The Company uses a mix of cash and borrowings to manage the liquidity & fund requirements of its day-to-day operations. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The borrowings are fixed rate and / or Variable rate borrowings and are carried at amortized cost. The Fixed Rate borrowings therefore not subject to interest rate risk as defined in Ind AS 107, 'Financial Instruments - Disclosures', since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Interest rate risk exposure

The following table provide the break-up of the co. fixed and floating rate borrowing

(₹ in Lakhs)			
Particulars	March 31, 2018	March 31, 2017	April 01, 2016
Fixed Rate Borrowings	-	-	-
Floating Rate	14,563.08	12,555.32	10,937.61
Total Borrowings	14,563.08	12,555.32	10,937.61

Interest rate sensitivity analysis:

The sensitivity analyses below have been determined based on the exposure to interest rates for floating rate liabilities, assuming the amount of the liability outstanding at the year-end was outstanding for the whole year.

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the Company's profit for the year ended 31 March 2018 would decrease / increase by ₹ 145.63 Lakhs (for the year ended 31 March 2017: decrease / increase by ₹ 125.55 Lakhs). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Foreign Currency Risk

The Company's exposure to currency risk relates primarily to the Company's operating activities including anticipated sales & purchase and borrowings where the transactions are denominated in a currency other than the Company's functional currency. The risk is measured through a forecast of highly probable foreign currency cash flows.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at 31.03.2018 are as In equivalent INR

Particulars	US\$	GPB	EURO
Financial Assets	2,033.13	1.12	11.35
Financial Liabilities	4,717.91	-	46.50
Net exposure	(2684.78)	1.12	(35.15)

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at 31.03.2017 are as in equivalent INR

Particulars	US\$	GPB	EURO
Financial Assets	1,850.36	289.31	32.06
Financial Liabilities	4,535.59	-	67.84
Net exposure	(2,685.23)	289.31	(35.78)

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at 01.04.2016 are as in equivalent INR

Particulars	US\$	GPB	EURO
Financial Assets	1,359.92	184.77	19.91
Financial Liabilities	4,705.48	-	1.64
Net exposure	(3,345.56)	184.77	18.27

The following tables demonstrate the sensitivity to a reasonably possible change in foreign currency rates, with all other variables held constant.

Particulars	Impact on profit before tax			
	March 31, 2018		March 31, 2017	
	0.5%	(0.5%)	0.5%	(0.5%)

GBP	0.01	(0.01)	1.45	(1.45)
EURO	(0.18)	0.18	(0.18)	0.18

Note No. 47 CAPITAL MANAGEMENT

The Company's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth. The Company's overall strategy remains unchanged from previous year.

The funding requirements are met through a mixture of equity, internal fund generation and other non-current borrowings. The Company's policy is to use current and non-current borrowings to meet anticipated funding requirements.

The Company monitors capital on the basis of the gearing ratio which is net debt divided by total capital (equity plus net debt).

Net debt are non-current and current debts as reduced by cash and cash equivalents, other bank balances and current investments. Equity comprises all components including other comprehensive income.

The following table summarizes the capital of the Company:

Particulars	(₹ in Lakhs)		
	March 31, 2018	March 31, 2017	April 01, 2016

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**Note No. 48 FIRST TIME ADOPTION OF IND AS**

The Company has adopted Ind AS with effect from April 01, 2017 with comparatives being restated. Accordingly, the impact of transition has been provided in the Opening Reserves as at April 01, 2016. The figures for the previous period have been restated, regrouped and reclassified wherever required to comply with the requirement of Ind AS and Schedule III.

Ind AS 101 First-time Adoption of Indian Accounting Standards allows first-time adopters certain exemptions from retrospective application of certain requirements under Ind AS. Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

IND AS – Optional Exemptions

- i. Fair valuation as deemed cost for certain items of Property, Plant and Equipment,
The Company has elected to measure the items of property, plant and equipment and intangible assets at its carrying value at the date of transition except for certain class of assets which are measured at fair value as deemed cost.
- ii. Designation of previously recognized financial instruments
Ind AS 101 allows an entity to designate investments in equity instruments at FVTOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The Company has designated certain investments in equity share as held at FVTOCI on the basis of the facts and circumstances that existed at the transition.
- iii. Share based payments
Ind AS 101 encourages, but does not require, first time adopters to apply Ind AS 102 Share based Payment to equity instruments that were vested before the date of transition to Ind AS. The Company has elected not to apply Ind AS 102 to options that vested prior to April 1, 2016.

IND AS – Mandatory Exceptions**i. Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 01, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

The Group made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investments in equity instruments carried at FVOCI
- Other investments carried at FVTPL or FVOCI; and
- Impairment of financial assets based on expected credit loss model.

Cash and cash equivalents as at the end of the year		1,074.49	(507.84)	566.65

Notes to reconciliation
1. Revenue from Projects

Under the previous GAAP, revenue from Public-Private-Partnership Contracts, which involve supply of materials and services over the contract period, were recognized after successful installation. Where the contract involves a deferred consideration payable contingent on a future performance obligation, revenue was recognized only after successful fulfilment of such future obligation. As per Appendix A of IND AS -11 read with IND AS 18, the revenue from such contracts shall be recognized based on percentage of completion method. The amount receivable shall be recognized as a financial asset and valued at amortized cost.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)**Note No. 49 RECONCILIATION ON FIRST TIME ADOPTION OF IND AS (CONTD.)****2. Fair Valuation of Investments**

Under the previous GAAP, the non-current investments were valued at cost less any permanent diminution in the value of investments. Current investments were valued at lower of cost and fair value. IND AS 109 requires Financial Assets to be designated as Fair Value through Profit and Loss/ Fair value through Other Comprehensive Income/Amortized Cost. The Value of Investments have been measured at fair value.

3. Provisions**a. For Proposed Dividend**

Prior to 1.4.2016, dividend proposed by the Board of Directors, but before the approval of the financial statements were considered as adjusting events, under previous GAAP. However under IND AS, such dividend are recognised when the same is approved by the shareholders at Annual General Meeting (AGM). Accordingly, the liability for proposed dividend recognised as on transition date has been reversed with corresponding adjustment to opening retained earnings and recognised in the year of approval in the AGM.

b. For warranty

Under the previous GAAP, provisions were not recognized for constructive obligations. Under IND AS, provisions are measured for present obligations (both legal and constructive) as a result of past events, where it is possible that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made out of the obligation.

c. For Expected Credit Loss

IND AS 109 requires a provision to be made for Expected Credit Losses on an unbiased basis, considering the time value of money, and with reasonable and supportable information and forecasts, and the economic conditions as on the reporting date. The provision shall be reviewed as at each reporting period, with respect to its sufficiency and appropriateness.

4. Revaluation of Property, Plant and Equipment

Ind AS 101 permits an entity to elect to measure an item of property, plant and equipment at the date of transition to Ind AS at its fair value and use that fair value as its deemed cost at that date.

Accordingly, the Company has elected to use the fair value of certain items of property, plant and equipment on the date of transition and designate the same as deemed cost on the date of transition.

5. Deferred Tax

The previous GAAP permits accounting of Deferred taxes under the Income Approach as well as the Balance sheet Approach. Hence, the Company had followed the Income Approach. However, IND AS 12 requires the tax consequences to be recognized as a difference between the carrying amount of assets and liabilities and their tax base.

6. Other Comprehensive Income

Under previous GAAP, deferred tax was accounted using the income statement approach on timing difference between taxable profit and accounting profit. Under IND AS, deferred tax is recognised following Balance sheet approach on temporary differences between the carrying amount of asset or liability and its tax base.

7. Reclassification under IND AS

Assets and Liabilities have been regrouped/reclassified where ever required to conform to the requirements of Ind ASs.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018 (Contd.)
Note No. 50 BUSINESS COMBINATION WITH SALZER MAGNET WIRES LIMITED

NOTES

[illegible]

The logo features the word "salzer" in a green, stylized, lowercase font. It is centered within a white circle, which is surrounded by a thick blue ring. This central element is further enclosed by a larger, light gray ring. The entire design is set against a green background with a circuit-like pattern of lines and various electronic symbols such as resistors, capacitors, and diodes. Several upward-pointing arrows are also visible, some in yellow and some in green.
